Responsive, Reliable, Resourceful...

service and experience making the difference for over 45 years

Prescription For Success

Custom Designed Medical Facilities With Maximum Flexibility

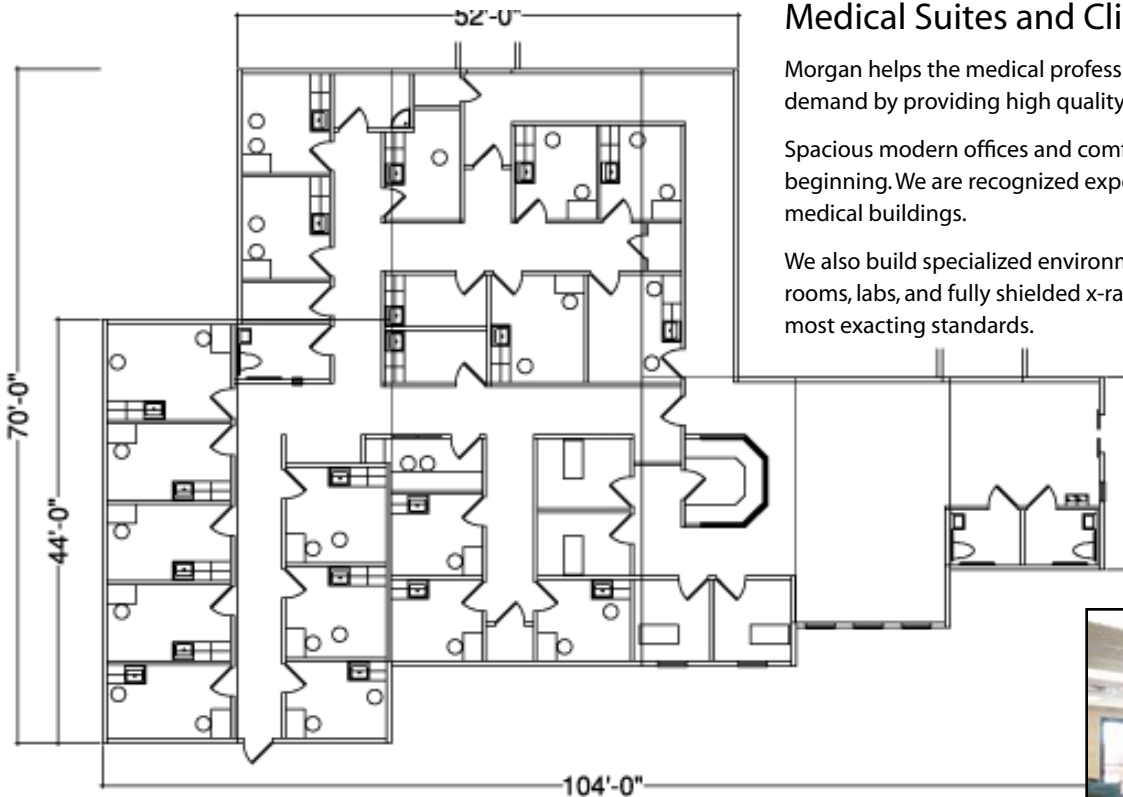

Medical Suites and Clinical Environments

Morgan helps the medical profession keep pace with growing demand by providing high quality cost-effective medical buildings.

Spacious modern offices and comfortable waiting rooms are just the beginning. We are recognized experts in the construction of modular medical buildings.

We also build specialized environments including examination rooms, labs, and fully shielded x-ray facilities, all built to meet your most exacting standards.

Our people's attention to detail is the Morgan difference

Professional Solutions, Personal Touches

Morgan provides low cost modular solutions for expanding patient areas, private offices, file storage, and administrative space.

And we go further:

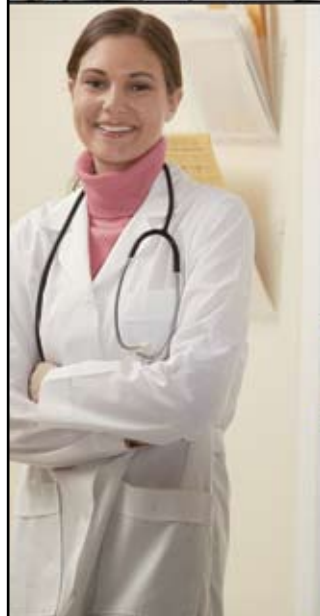

Our experienced designers work *with* you to create the ideal professional environment that is functional, pleasing, and comfortable for both patients and staff.

Every square foot is designed to meet the demands of your busy practice, and to reflect your individual style.

You can choose textured walls, vinyl coverings, crown moldings, custom floors, chair rails, custom lighting, and other amenities – even cathedral ceilings!

Entry options range from basic to inviting, with covered porticos, and with rich exterior finishes of brick, stucco, or siding.

Financing, lease or lease/purchase plans available.

The Morgan Advantage Is Your Advantage

As your practice grows, so does your need for space. Traditional construction is not only costly, but notoriously prone to delays, overruns, and the quality control issues of managing dozens of subcontractors.

Morgan's buildings are factory built, under controlled conditions, by our own skilled craftsmen. At every one of our six manufacturing plants, our own experienced employees perform all of the work.

We continuously monitor and manage every step of the process to ensure strict adherence to quality standards, and to your deadlines. Your building arrives 90% complete, and goes into service 20% to 40% faster.

Morgan buildings can be stronger structurally and more energy efficient than traditional construction, providing significant benefits in lower lifetime operating and maintenance costs.

We've spent more than 45 years perfecting modular construction to be the most responsive – and responsible – solution to your work force needs. After more than 100 million square feet, we're confident that you'll find the Morgan Building System to be the most convenient, most versatile, and most cost effective solution to your growing practice needs.

Please contact us to learn more about the many options and advantages of Morgan Buildings.
